

# CSCI 1301 – Lab 15

October 4, 2018

## 1 Exam #1

You just took exam #1, how was it? You can share you thoughts and questions during this lab session with your classmates and me.

If you want, you can also

1. Answer a small “Stop / Continue / Start” survey on D2L<sup>1</sup> to help me improve this class,
2. Have a look at a possible Automobile<sup>2</sup> implementation (warning: this project is “code only”, without any comment!).
